

Subject: Urethritis (inflammation of the urethra)

Case study

A 43-year-old office worker presented with persistent burning urination and lower abdominal discomfort, consistent with urethritis. After an initial course of antibiotics addressed the main infection, he continued experiencing mild irritation and fatigue. Standard tests ruled out complicating factors. Seeking a holistic approach, he explored bioresonance therapy to support recovery and enhance overall well-being.

Bioresonance analysis suggested an energy disturbance in the urogenital area, with subtle imbalances in cellular frequencies. His treatment plan included weekly bioresonance sessions tailored to harmonize the body's energetic fields and foster optimal cell energy balancing. The program complemented his previous conventional treatment without interfering with it. After four sessions, he reported improved comfort, steadier energy, and a renewed sense of well-being. While classic medical oversight remained central, bioresonance provided additional energetic support, reinforcing his wellness journey by addressing energy balance at a subtle level and helping regulate the body's natural processes.

Bioresonance treatment program:

45.40 Urethritis (inflammation of the urethra)	Time
00.00 Analysis preparation.....	5 min
01.00 Vitalisation complete	5 min
02.00 Acupuncture Meridians complete	5 min
31.17 ATP production bladder	5 min
31.23 ATP production kidney	5 min
35.10 Raising the defence capacity, basic program.....	5 min
70.21 Kidneys, ureter.....	10 min
44.10 Kidney complete	5 min
44.20 Urinary organs complete.....	5 min
45.35 Cystitis (inflammation of the bladder)	5 min

45.40 Urethritis (inflammation of the urethra)	5 min
31.50 Basic detoxification program	5 min
01.00 Vitalisation complete	5 min
