

## Subject: Wet macular degeneration - WET AMD

### Case study

A 73-year-old retired teacher was diagnosed with wet age-related macular degeneration (wet AMD) after noticing visual distortion and difficulty reading. She underwent regular intravitreal injections, which partially stabilized her vision but left her feeling fatigued and anxious about disease progression. Frustrated with the ongoing challenges, she explored complementary options to optimize her well-being.

### Bioresonance treatment program:

57.40 Wet macular degeneration - WET AMD .....	Time
00.00 Analysis preparation.....	5 min
01.00 Vitalisation complete .....	5 min
02.00 Acupuncture Meridians complete .....	5 min
31.31 ATP production eyes .....	5 min
31.81 Scar interference suppression.....	5 min
31.87 Oedemata.....	5 min
35.10 Raising the defence capacity, basic program.....	5 min
70.12 Eye system .....	10 min
38.10 Arteries .....	5 min
39.10 Arterial impairment of the blood supply.....	5 min
54.22 Cerebral nerve (optic nerve) .....	5 min
56.34 Retina .....	5 min
56.61 Visual nerve.....	5 min
56.62 Yellow spot.....	5 min
57.40 Wet macular degeneration - WET AMD .....	5 min

# The Bioenergy Clinic

Harmonise with Bioresonance

31.50 Basic detoxification program ..... 5 min

01.00 Vitalisation complete ..... 5 min
